

TROY H. LABAJO

Mid-Level Full Stack Developer | AI Automation Engineer

0968-711-0935 | labajotroy3@gmail.com | Tabunok, Sogod, Cebu, 6007 | Portfolio: troyuu.online

PROFESSIONAL SUMMARY

Mid-level Full Stack Developer and AI Automation Engineer with hands-on experience building production-grade web applications, e-commerce platforms, mobile apps, and intelligent automation workflows. Skilled at translating business needs into clean, scalable systems — from real-time dialer platforms and CRM integrations to AI-driven workflow automation. Passionate about clean architecture, pixel-perfect UI/UX, and helping teams ship reliable software that solves real problems.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React, React Native, Next.js, Redux, HTML5, CSS3, Tailwind CSS, shadcn/ui, DaisyUI

Backend: Node.js, Express.js, Django, REST APIs, WebSockets, JWT Authentication

Databases & ORM: PostgreSQL, MongoDB, MySQL, Sequelize

AI & Automation: n8n, Airtable, Telegram Bots, Workflow Automation, AI Integration

DevOps & Tools: Docker, Docker Compose, Git, GitHub, Postman, CI/CD, Linux

E-Commerce & Platforms: Shopify, Shopify CLI, WordPress

Design & Collaboration: Figma, Responsive UI/UX Design, Component-Based Architecture

PROFESSIONAL EXPERIENCE

Full Stack Developer | Cebu Grand Realty

Present

Building and maintaining full-stack web applications, AI automation workflows, and e-commerce platforms supporting business operations and client deliverables.

Turbo Admin & Dialer — Full-Stack Dialer Platform

- Architected and built a full-stack outbound sales call center platform with three integrated modules — REST API backend, admin dashboard for lead/agent/campaign management, and a real-time agent dialer with auto-dial and disposition workflow.
- Integrated Dialpad REST API + CTI iframe, implemented round-robin lead auto-assignment, timezone-aware calling windows, CSV/XLSX bulk import, and bidirectional Airtable CRM sync with real-time WebSocket communication.
- Tech Stack: Node.js, Express 5, React 19, Vite 7, Tailwind CSS 4, PostgreSQL 17, Sequelize 6, WebSockets, JWT, Dialpad API, Airtable API, Pino, Zod, Docker Compose.

FIGHT — Shopify E-Commerce Store for MMA Equipment

- Developed a Shopify e-commerce store specializing in MMA equipment, featuring product catalogs, shopping cart, and secure checkout for martial arts gear and accessories.
- Customized and deployed a Shopify theme via admin preview and Shopify CLI, configuring product collections, navigation, and storefront branding.
- Tech Stack: Shopify, Shopify CLI, Liquid templating.

Telegram Quizbot — AI Quiz Generation Automation

- Built an automated quiz generation system for training agents — users send a YouTube link to a Telegram bot, which generates 10 contextual questions and delivers them directly to the agent's Telegram account.

- Designed and orchestrated the end-to-end automation in n8n, integrating YouTube content extraction, AI-powered question generation, Telegram delivery, and Airtable as the data layer for tracking quiz records and results.
- Tech Stack: n8n, Airtable, Telegram Bots API.

Freelance Front-End Developer | Independent Contract

2024

Engaged by a private client to deliver a custom classroom booking system as a contracted software solution.

AUTRACK — Classroom Booking System

- Built a responsive classroom booking platform allowing users to view and request schedules efficiently, delivered as a turnkey solution to the client's specifications.
- Developed reusable, component-based UI with React and TypeScript, styled with Tailwind CSS and shadcn/ui, ensuring full accessibility and mobile responsiveness across screen sizes.
- Tech Stack: React, TypeScript, Tailwind CSS, shadcn/ui, Git/GitHub.

Content Moderator | Alorica Cebu (Client: ByteDance / TikTok)

2024 – 2025

- Reviewed and moderated user-generated content on TikTok against client policies, ensuring platform safety, community standards, and regulatory compliance at scale.
- Labeled and annotated content to train and refine ByteDance's AI moderation models — feeding the system high-quality human judgments so it could learn to handle similar cases autonomously and reduce the need for human intervention.

CHARITY & OPEN-SOURCE PROJECTS

MUNIFI — Municipal Complaint Management System

- Full-stack platform enabling residents to file complaints to their municipal hall and track real-time status, with an admin dashboard for end-to-end complaint lifecycle management, hearing calendar, analytics, and role-based access control.
- Tech Stack: Next.js, TypeScript, Tailwind CSS, shadcn/ui, Auth.js, Express.js, Sequelize, PostgreSQL, Zod, Turborepo.

ADAWPT — Community-Driven Stray Animal Rescue Platform

- Community platform for reporting stray animals with location pinning, browsing and adopting rescued pets, donating to rescue operations, and volunteering for events — featuring a multi-step reporting form and donation system with real-time stats.
- Tech Stack: Django, PostgreSQL, Tailwind CSS, HTML, Docker.

CONVERTEX — Free Open-Source File Conversion Web App

- Privacy-first file conversion web app supporting 18 conversion types across documents, images, spreadsheets, and presentations, with files auto-deleted after download — no accounts, no tracking, no data collection.
- Tech Stack: React, Vite, Tailwind CSS, Express.js, Sequelize, PostgreSQL, LibreOffice, Sharp, Tesseract.js.

CORE SERVICES & CAPABILITIES

- Web Development: Custom websites and web applications built with React, Next.js, and Express.js — fast, scalable, and tailored to client needs.
- Mobile App Development: Cross-platform mobile apps using React Native, delivering native performance on iOS and Android from a single codebase.
- Web Design: Clean, responsive UI/UX with pixel-perfect layouts crafted in Tailwind CSS and shadcn/ui.

- Business Automation: Streamlined workflows using n8n, Airtable, and custom bots to automate repetitive tasks.
- Deployment & DevOps: Docker containerization, hosting setup, and CI/CD pipelines for smooth production releases.
- E-Commerce Solutions: Shopify stores and custom online shops with product catalogs, shopping carts, and secure checkout.

EDUCATION
